Operator rescue board

9/9 chosen · 36 available · 0 unavailable · 0 excluded

This is your override. Choose any nine retained, displayable images and arrange them yourself. Composite, duplicate, anti-anchor, and Vibe labels remain visible as algorithm evidence, but they do not veto the rescue. Only unavailable images and your exclusions stay out. The original audit and Daily Drop eligibility never change.

Saved rescue records

Each record is immutable and records-only by default. Explicitly confirm a board as calibration evidence to teach future audits; the historical audit and receipt never change.
