FANDOM VIBES / PRIVATE CALIBRATION

Actor preflight lab

Calibrate actor × Vibe Pack pairings against bounded evidence before they enter the Daily Drop rotation.

Operator boundary

One pairing at a time

Every decision leaves a receipt.

Rescue arrangement exported and synced to Collection. Exported locally, but 9 images still depend on remote sources: VSSR

Blind comparison unavailable

This run formed a complete nine-card proposal, but an automated publication gate did not pass. Review any retained proposal below, then replace its hero or reorder retained evidence in the operator board.

https://fandom.justlikekatie.com/?admin=true

Event proposal missing

No bounded work or role family produced enough distinct frames for an Event board. Make the query more specific.

Compiled complete proposal · automated gate not passed

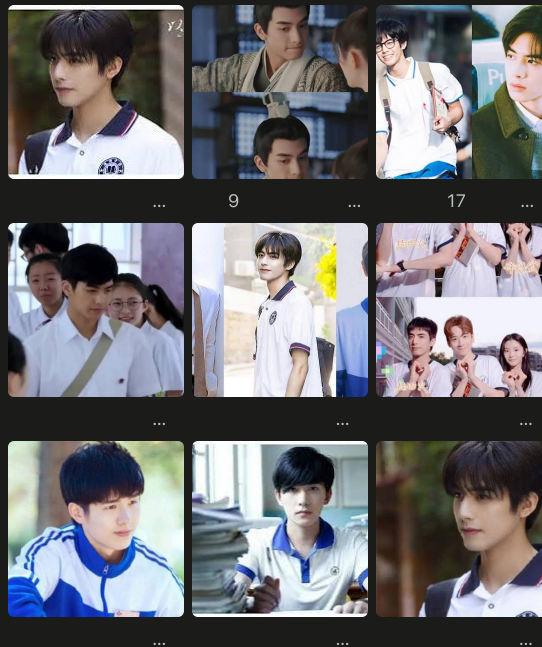

Compiled formed a complete proposal, but only 9 of 9 cards fulfilled the Vibe Pack's required anchors; at least 7 plus an on-promise hero are required.

Complete nine-card proposal

These proposals reached nine images. A proposal that missed an automated publication gate remains visible for editorial review; use the operator board below to replace its hero, reorder it, and save an exact approved arrangement.

Compiled complete proposal · automated gate not passed

9-card
board

**Event**

No meaningful Event runner-up exists because no board qualified.

Compiled

No meaningful Compiled runner-up exists because no board qualified.

retained results

Operator rescue board

9/9 chosen · 36 available · 0 unavailable · 0 excluded

This is your override. Choose any nine retained, displayable images and arrange them yourself. Composite, duplicate, anti-anchor, and Vibe labels remain visible as algorithm evidence, but they do not veto the rescue. Only unavailable images and your exclusions stay out. The original audit and Daily Drop eligibility never change.

Saved rescue records

Each record is immutable and records-only by default. Explicitly confirm a board as calibration evidence to teach future audits; the historical audit and receipt never change.

AUDIT RUN

Current · 1d3867dc-4c21-4a08-9dbc-7f482ced6a1d · 9/2/2026, 9:52:31 AM

FINAL PUBLICATION DECISION

Publish this exact rescue board to the Daily Drop Record the publication decision, then confirm both human judgments for this exact board.

These checks do not certify that the algorithm has learned the Vibe Pack; they only authorize this frozen editorial board for publication.

Your saved nine will publish
