Actor preflight lab

Calibrate actor x Vibe Pack pairings against bounded evidence before they enter the Daily Drop rotation.

One pairing at a time

Every decision leaves a receipt.

Full audit completed, but it did not produce two complete boards. Review the retained evidence below; one complete board can still ship after both human confirmations.

Operator rescue board

0/9 chosen · 36 available · 0 unavailable · 0 excluded

This is your override. Choose any nine retained, displayable images and arrange them yourself. Composite, duplicate, anti-anchor, and Vibe labels remain visible as algorithm evidence, but they do not veto the rescue. Only unavailable images and your exclusions stay out. The original audit and Daily Drop eligibility never change.
